The THIRD EDITION of

HARVEY'S CORN TABLES,

OR, THE

Farmer's and Corn-Buyer's Affiftant.

CONTAINING,

- I. TABLES wherein the Value of any Quantity of CORN, from a Bushel to twerty Comb, in what is termed Full, or Bare Measure, (at any Rate per Comb, from Three Shillings, increasing by Three-Halfpence per Comb, to Thirty Shillings) may be had in less than a Quarter of a Minute.
- II. TABLES for MALT-RETAILERS, in which is shewn the Value of any Quantity of MALT, from a Comb to a Quarter of a Peck, and from Four Shillings the Comb to Thirty Shillings.
- 111. TABLES, wherein is shewn the Value of any Number of Yards of Pounds, (from One to One Hundred) from One Farthing per Yard of Pound, to three Shillings, increasing at One Farthing per Yard of Pound.

By RICHARD HARVEY, Late of BUNGAY.

NORWICH:

Printed for, and Sold by MARTIN BOOTH, Bookfeller, at Chaucer's Head, in the Market-place.—This Work being his fole Property, by his Appointment is fold by Mr. EATON, at Yarmouth; Mr. Hot-LINGWORTH, at Lynn; Mr. BARKER, at Dereham; Mr. Shave, at Ipfwich; Mr. BROWNE, at Difs; and by the Bookfellers in Town and Country.

Mr. HARVEY'S PREFACE.

Dotwithstanding the many Volumes of Tables that have been published, I am not at all discouraged to offer one more, though I confess on a different Structure, and to a different Use; and I hope will be found (with a very little Confideration) to be more useful and expeditious than any which have appeared before; for though there are many Books of Tables that are sufficient to shew us the Value of any Quantity in Weight or Measure, yet some Parts being useless, others so perplexing that sew but Arithmeticians can understand them, and to the Man of Figures it would be almost as expeditious to work by the Pen as by the Tables. Therefore I have been induced to publish these following, where the Value of almost any Quantity may be had by only adding two Sums together, both of which the Eye may be upon at the same Time, as will appear hereafter.

The first Thing that induced me to calculate these Tables was the many Complaints among the Farmers and Corn-Merchants, of the Trouble and Mistakes that often happen in paying and receiving for smaller Parcels than full Lasts, as will be shewn further on. Another Inducement was from a very worthy Gentleman, a Merchant in Bungay, who knowing the Utility of

them, defired they might be made public.

It is a common Practice among Farmers to abate one Shilling in the Pound for Defect of In-Measure, wherein it ought to be no more than one Shilling in twenty-one. For Example, suppose Wheat be fold for 15 Shillings per Comb, and the Farmer delivers in 20 Comb, which, according to the Custom of many Places in England, is called bare Measure, and wants a Comb to be a full Last; for this above Quantity the Farmer will receive 141. 55. but every Arithmetician knows he ought to receive 141. 55. 8d. 4

Another Example: Suppose Grain be fold for 29s. per Comb, and a Farmer delivers in 14 Comb bare, he will receive 19l. 5s 7d. 4, when he ought to receive 19l. 6s. 8d and so of other Quantities in Proportion. From hence will appear the Usefulness of the following Tables.

Directions how to use the TABLES.

Each Page of the first Part in this Book is divided into fix Columns; the first contains the Number of Combs up to 20, and underneath are the Bushels; the second, the Value of any Number of Combs up to 20, sull Measure; the third, the Value of the same Number, bare Measure; the three last are the same over again, only at 1d. ½ advanced, which is set forth at the Top of the Columns.

EXAMPLE.

Suppose a Farmer delivers in 14 Comb and a half, full Meafure, at 7s. 7d. ½ per Comb, let him look at Page 19, for 14 Comb, in the fourth Column; against which, in the fifth, he will have 5l. 6s. 9d. the Value of 14 Comb full Measure; but if he delivers 14 Comb bare, by carrying his Eye to the fixth Column he will find 5l. 1s. 8d. the Value of 14 Comb bare.

Again, suppose a Farmer delivers in 16 Comb 3 Bushels, full Measure, at 18s. 10d. \(\frac{1}{2}\) per Comb, let him look at Page 64, in the fourth Column; against 16 he will have the value of 16 Comb sull equal to 15l. 2s. and at the Bottom is 14s. 1d. \(\frac{3}{4}\) the Value of 3 bushels. The Sum of the two Values is 15l. 16s. 1d. \(\frac{3}{4}\) But if he delivers hare Measure, against the same 16 in the fixth Column he will have 14l. 7s. 7d. \(\frac{1}{4}\) and at 3 in the Bushels is 13s. 5d. \(\frac{1}{2}\), these two Sums make 15l. 1s. od. \(\frac{3}{4}\); the Value fought.

The Second Part is calculated for Retailers of small Parcels of Grain, from a Comb to a Quarter of a Peck, and from 4s. the Comb.

Comb, to 30s. as denoted on the Top of the Columns. To exemplify this, suppose the Value of a Peck and a Half at 5s. 8d. per Comb was required, look at Page 113, in the first Column, against 1, in the First, and you will have the Value of one Peck equal to 4d. 4, and in the same Column against 2, in the Quarter Pecks, is 2d. 4. Thus much for the Second Part.

The Third Part is fomething like what has been printed before, only perhaps will be found more expeditious and eafy; for the Value of any Quantity under 100 may be had, whether in Yards, Pounds, or Ells, &c. from a Farthing per Pound, increasing to three Shillings per Pound, Yard, or Ell, and is very

ufeful in Shops, and for Market-People

For Example, suppose it were required to find the Value of 19lb. at 1s. 3d. ½ per lb. look at Page 146, against 19 in the first Column, and in the third will be found 11. 4s. 6d. ½ the Value of 19 Pouud, Ell, Yard; &o.

Again, let it be proposed to find the Value of Fifty Yards at 2s. 5d. 3 per Yard, look in Page 160, in the fourth Column

against 50, it will be found to amount to 61. 35. 11d. 1

I have been the more particular in shewing the Method of using these Tables, knowing that many People, not caring to give themselves much Trouble, have bought Books of this Kind, after which they have given a slight Look at them, and not seeing their Use immediately, have thrown them by as useless:

but I hope these will be of much more Advantage.

The Tables herein contained, the greatest Care and Attention has been taken in order to make this Third Edition correct, as there were many Mistakes in the former Editions; and, no doubt but this small Treatise will be found to be of public Utility, as it is so very convenient for the Merchant, the Farmer, the Corn-Buyer, and the Tradesman; --- and no other Edition of these Tables is Genuine but what is signed with the Hand-writing of

Martin Booth

At 3s. and 3s. 1d. Halfpenny per Comb.
